

Government Operations Committee  
July 12, 2005 at 5:00 p.m.  
City Council Chambers

Agenda

1. Proposed No-Smoking Policy at City of Bangor Department of Health and Welfare

Health and Welfare Director Yardley is proposing that a no-smoking policy be enacted for the Department at 103 Texas Avenue. Please see attached cover memorandum and draft policy.

2. Notice of Grant Award – Bangor Fire Department Training Facility

The Fire Department has been notified that grant funds totaling nearly \$33,000 have been approved to construct a bathroom and decontamination facility and to repair the existing burn building and classroom. Bangor will contribute a 50% match of in-kind labor and water-sewer connections. This is a valuable regional training facility that benefits many surrounding Fire Departments including the Air National Guard Fire Department. The Committee is being requested to recommend to the Council that the grant be accepted and the funds be appropriated for this project. Additional back-up material regarding the project is attached for your information.
